FIRST FINANCIAL
MATERIAL HANDLING & AUTOMATION

Effortless material handling.

(At least the leasing part.)

First Financial is an independent financial services firm that can assist you with the procurement of capital equipment within the four walls of your distribution center or manufacturing plant.

Let us help you by investing in:

- Aerial & Scissor Lifts
- AS/RS Equipment
- Automated Guided Vehicles (AGV)
- Barcode Scanners
- Batteries and Chargers
- Conveyor and Racking Systems
- Forklifts
- Hydrogen Fuel Cells
- Robotics
- Spotters
- Supply Chain Software
- Vertical Lift Modules

Benefits of Lease Financing with First Financial:

- Conserves capital and provides 100% financing with no down payment required
- We make all upfront payments, so you gain the benefit of your solution when the lease commences
- Option to wrap all project costs like engineering, software, services, freight, and installation into one monthly payment
- Flexibility at end of term allows purchase of the equipment or upgrade to newer equipment

THE PACE OF CHANGE IS ACCELERATING

Don't let the cost of automation prevent you from moving faster. Find out how First Financial Material Handling & Automation can equip your business for the future — **TODAY.**

Worried About Staying Ahead of Your Competition?

Offer Your Customers Solutions That Others Don’t

In today’s competitive business climate, it takes more than just a great reputation and excellent service to win projects and grow your business. By offering financing options to your customers, you provide solutions your competitors may not.

The material handling and warehouse automation industry is achieving robust growth, but many companies lack the capital to proceed with a project…even though the ROI is obvious. This is where we come in. First Financial Material Handling & Automation is an independent leasing company that helps many manufacturers, dealers and suppliers win business. A 3-7 year lease for new equipment may be far easier to justify as your customer pays for your solution while they gain the productivity benefit. We can even wrap “soft costs” such as delivery, installation, software, and engineering into your lease.

From forklifts to fully automated distribution centers, we help our customers utilize world class technology to stay ahead of what’s next. We serve a wide range of industries including manufacturing, retail, consumer products, and logistics and can write business in the U.S., Canada, and Mexico. I can assure you that the right financial package wrapped around your solution will help your sales team win more business.
