FIRST FINANCIAL HEALTHCARE IS WELL POSITIONED TO PROVIDE HEALTHCARE ORGANIZATIONS OF ALL SIZES ACCESS TO LIQUIDITY AND RAPID FINANCING SOLUTIONS

We realize as you scramble to do everything possible to prepare and upgrade your facilities for the threat of COVID-19, you are becoming financially squeezed. While revenues are shrinking, expenses are skyrocketing. Considering the tremendous financial pressure you are under, we understand the hard decisions you are facing.

Over the last several weeks, we have answered the call from our customers in the healthcare industry needing immediate access to capital to procure critical care equipment and medical supplies. With many lenders and service providers pulling back, we are stepping forward with 20 years of success and a strong financial backing – all to provide you with access to liquidity and rapid financing solutions.

Whatever your budget or equipment needs, we have programs available for varying levels of credit with approvals being grated on an expedited basis. We are also offering 100% financing with zero down, and a 90-day deferral on payments so you can retain your cash for emergency situations. We anticipate that as vendor lessors and banks continue to shrink away from this market, credit markets could continue to contract and become more challenging. Because we are backed by institutional investors and not a bank, we are well-positioned to finance all your procurement needs.

At First Financial Healthcare, we stand ready to take care of you so that you can focus on the care of your patients.

Worried About Staying Ahead of Your Competition?

Offer Your Customers Solutions That Others Don't

In today's competitive business climate, it takes more than just a great reputation and excellent service to win projects and grow your business. By offering financing options to your customers, you provide solutions your competitors may not.

The material handling and warehouse automation industry is achieving robust growth, but many companies lack the capital to proceed with a project…even though the ROI is obvious.

This is where we come in. First Financial Material Handling & Automation is an independent leasing company that helps many manufacturers, dealers and suppliers win business. A 3-7 year lease for new equipment may be far easier to justify as your customer pays for your solution while they gain the productivity benefit. We can even wrap “soft costs” such as delivery, installation, software, and engineering into your lease.

From forklifts to fully automated distribution centers, we help our customers utilize world class technology to stay ahead of what’s next. We serve a wide range of industries including manufacturing, retail, consumer products, and logistics and can write business in the U.S., Canada, and Mexico. I can assure you that the right financial package wrapped around your solution will help your sales team win more business.
